

Desire2Learn: Quick Start Guide

Desire2Learn (D2L) is the online course management system that is replacing Blackboard and WebCT. This quick start guide provides information to get you started using D2L. A more complete user guide can be found on the IT homepage at <http://www.it.okstate.edu/>.

Conducting a System Check

Before you login to Desire2Learn for the first time, you must conduct a system check to make sure that your web browser is configured correctly for the site. Follow the steps listed below to perform a system check.

1. Go to web address <https://oc.okstate.edu>
2. Click on the phrase **Please click here for a System Check before you login**. It is located near the bottom of the page.
3. A new web page will open that shows your computer's settings. Follow the Passed or Failed steps below based on the results of your system check.

✓ Passed

- a. Close the page to return to the D2L login page.
- b. Proceed with logging in.

✗ Failed

- a. Click on the links provided for instructions on how to change your computer's settings.
- b. After changing your computer's settings, close the page to return to the D2L login page.
- c. Repeat the system check.
- d. Repeat steps a through c until your computer passes the system check.

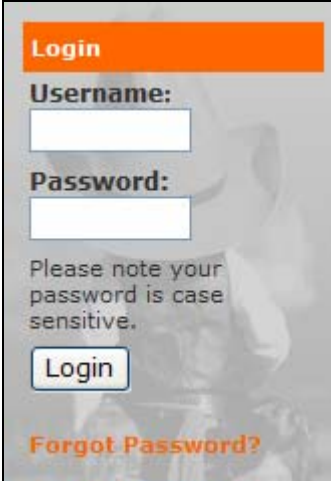

Logging in to Desire2Learn

To login to D2L you will need your OKEY user name and password. Follow the steps listed below to login to the D2L site.

1. Go to the web site <https://oc.okstate.edu>
2. Enter your OKEY user name in the user name text box.

Note: If you have forgotten your password, you can reset it by clicking on the **Forgot Password?** link located under the login button.

3. Enter your OKEY password in the password text box.

The screenshot shows a login form with an orange header labeled "Login". Below the header are two text input fields: "Username:" and "Password:". Below the password field is a "Login" button. Underneath the button is a note: "Please note your password is case sensitive." At the bottom of the form is a link labeled "Forgot Password?".

4. Click the login button.
